DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Price (U.S. 6,224,514). Please refer to paragraph 2 of the previous office action.

Response to Arguments

3. Applicant's arguments filed 09/13/2005 have been fully considered but they are not persuasive. Examiner points out that claims are examined in their broadest reasonable light. The structure of Price leads to some degree of oscillating force. Applicant's arguments that Price does not teach uniform constant oscillating force is not persuasive as those limitations are not contained in the claims. Furthermore, with respect to the arguments of cam-shaped, Examiner has argued that a cam can come in different shapes. Therefore, the pulley of Price may be construed as cam-shaped.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 3764

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
